

Smart IoT Box

WI-IOTBOXMINI

Overview

Wi-Tek's Smart IoT Box is an all-weather outdoor electrical equipment protection box designed for outdoor use in the outdoor environment. It has waterproof, dustproof, heat dissipation, anti-ultraviolet, anti-theft, anti-rust, acid and alkali corrosion, anti-electromagnetic interference (anti-lightning EMP), modular structure design in the box, electrical equipment can be installed vertically or horizontally according to the situation.

Fit outdoor CCTV, WLAN, Wi-Fi Coverage, Industrial IoT Application requirements with Wi-Tek industrial switch, 4G LTE router, outdoor wireless transmitter, solar powered PoE switch, IoT M2M gateway, and mesh AP, greatly decrease your project deployment cost by flexible modular installation.

Features

IP65 Ingress Protection

Outstanding dustproof and waterproof design protects the equipment inside the box in the outdoor.

Rugged construction, IK10 Inverse Kinematics

A seamless welding box body can withstand huge external forces without deformation.

Advanced Outdoor Protection

Made of aluminum alloy or 304 stainless steel connecting mounting parts, Electrostatic powder spraying main body, can anti-aging, gas corrosion resistance, UV damage resistance, acid and alkali corrosion resistance, salt spray moisture resistance.

Modular Installation

The modular structure design, top cover, side panel, DIN-rail, mounting plate, waterproof connector, fan, and microswitch are all detachable.

Heat Dissipation

The fan on the top and the cable and ventilation holes on the bottom form a bottom-up air duct to help heat dissipation.

Microswitch for Flexible Application

The door microswitch can be connected to the power supply, to the cloud alarm via I/O, or to the buzzer alarm.
